

BELGIAN
FURNITURE
2021

Kevin Snyders
Director BelgoFurn

Foreword

Belgium is known around the world for many exquisite things, from diamonds and beers to the best chocolate on earth. We have a rich cultural and artistic heritage and at the same time are at the forefront of modern Europe with regard to trade and innovation.

Our furniture industry is a reflection of all these values. It is no surprise that the Belgian furniture sector is able to achieve such a high export quota, with discerning clients across Europe and around the entire world.

There are many reasons to choose Belgian furniture for the products alone. We can boast some of the most inspired and creative designers, along with highly skilled, expert craftspeople who are able to bring these visions to life. The materials and production techniques used are at the leading edge of technology. The range of furniture available from Belgian companies includes hand-crafted items and those made using state-of-the-art production techniques. From timeless, classic designs to the very latest artistic creations, the range of furniture available across this high valued Belgian industry is extremely impressive.

Belgian businesses realise however that making high quality products is just one aspect of their overall offer. This is why companies in our industry work hard to add value in every aspect of their service. Their aim is always to be the most flexible and consistent partner, with premium service and reliable logistic support for customers, wherever they may be in the world.

For this edition, we have divided the directory into six main categories: Design, Popular, Health Care, Sleep, Office and Bath/Kitchen/Tailor-Made. The perfect way for you to find the suppliers that are most relevant, according to the applications and styles you wish to source.

Every type of furniture can be found within this directory. There is an unparalleled range of choice for both indoor and outdoor use. Whether you are seeking furniture for a domestic setting, or for commercial and other public access buildings, we are sure you will find partner companies that are the best fit to meet your requirements.

Thank you for having both the excellent taste and commercial sense to choose a partnership with the Belgian furniture industry.

W www.andez.be

8dez. is a brand new design label created by De Eiken Zetel nv. The complete collection is designed in Belgium and consists of fully-fledged concepts consisting of sofas, cabinets, tables, chairs, carpets and home accessories. The label stands for contemporary furniture with a casual feeling. Dreaming in the dunes is the title of 8dez's very first collection. 8dez wants to create a collection that makes people happy and makes people feel at home, not with clean lines but with cosiness and organic shapes. 8dez does not focus high-end marked but wants to make design affordable for all kinds of people, different ages, cultures and interests. 8dez represents a new generation of furniture. A clear link with the De Eiken Zetel roots, with a new look for a new generation in a changing world.

DEKNUDT MIRRORS

6

DESIGN

TURNING MIRRORS INTO ART

Deknudt Mirrors is synonymous with art. Not only does a mirror enlarge living space, but with the right frame and the right colour or shape it also ensures a perfect match with the rest of your interior. We create the most beautiful works of art and wall decorations that provide lasting added value in different styles.

For three generations, since 1946, Deknudt Mirrors has been the international brand in top-quality decorative mirrors. In 2019, the third generation within the company took the helm. Jan Deknudt is now the proud CEO of the family business. Deknudt Mirrors is unique of its kind because it controls the entire production process. Does the customer want a larger mirror or one in a different color? No problem, because there is a collection that offers any customization, even for a single item. That is why Deknudt Mirrors are available throughout Europe and worldwide at premium furniture stores and interior design boutiques. Moreover, international top designers find their way to Deerlijk to execute their ideas. Our project department also ensures that the company supplies custom mirrors for both residential projects and for the hospitality sector with a widest possible range of styles and sizes.

Feel free to take a look at our user-friendly website that can help everyone to find the ideal mirror to complement their interior. We are delighted to welcome you in our brand new showroom to discover our new collections. For professionals only.

DURLET

Durlet

Werkhuizenstraat 15
8870 Izegem
Belgium

✉ info@durlet.be

W www.durlet.com

Since the founding of the family business in 1966, Durllet has established its reputation as a manufacturer of durable, comfortable, design seating furniture. The collection consists of armchairs, sofas, chairs, recliners, benches and separate seating elements.

High-quality textiles and the best leathers are carefully processed with an eye for detail in the workshops in Izegem. Craftsmanship and modern technology go hand in hand, with unparalleled quality, and great flexibility as the end result.

Design for Durllet is not about following fashion or hypes, but is a motive and a business philosophy. Durllet has been working with internationally renowned designers for over 50 years. It consistently succeeds in translating their vision of seating furniture into contemporary, innovative and timeless designs. This resulted in several international nominations and awards. Durllet is also active on the contract market since the 1980s, resulting in cooperations with many well-respected names from the design and architecture world.

ETHNICRAFT

12

DESIGN

QUALITY WOODEN FURNITURE

For twenty five years, we have been creating authentic, contemporary and timeless furniture from solid wood. We believe in creating quality wooden furniture that lasts for generations and withstands trends. Our timeless designs are versatile and associate well with different styles, while our solid wood is strong and ages incredibly well with time. Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Our company's headquarters are situated in Boom, Antwerp and feature a 1.200 sqm showroom showcasing collections from furniture to accessories. Open to professionals only, the showroom welcomes retailers and distributors from all over the world, as well as architects in search of inspiration.

EVOLUTION 21

EVOLUTION21 – THE ART OF CREATION

Karine Bonjean made a name for herself as an interior designer, but noticed a few years ago that her real passion lays more in designing and creating unique and exclusive designs and started the now internationally operating Evolution21. With her unprecedented knowledge and unstoppable passion, Karine Bonjean creates homedesign with wonderful elegance and a mix of colors and contrasts. The quality company excels with high-quality furniture and fabrics with an artistic side and an ornate range of colors and designs.

EYE-CATCHING COLLECTION

Every object created by the Belgian designer is inspired by distant horizons and by her passion for interior art and creativity. A new vision of the decoration world for furniture and fabrics. This is based on craft and innovative techniques, a mix of prints, brilliant colors and materials. Evolution21's versatile and eye-catching collection includes sofas, seats, ottomans, tables, chairs, carpets, fixtures, wallpaper, cushions, fabrics and plaids. Beauty and perfection down to the smallest detail. The creations are not only very comfortable, but also look graceful, while the cushions, plaids and wallpaper enrich and heat the interior.

Evolution21's high end collection is only available through the exclusive furniture stores.

EXTREMIS

"Designers should always have the ambition to change the world for the better," is a quote from Dieter Rams, the founder of contemporary design. It is not surprising that a company led by a passionate designer makes choices that differ from a classic sales-driven organisation. Because Dirk Wynants is interested in all aspects of releasing his designs, this results in an exceptional synergy.

Equally exceptional is the design methodology used, where the "why" is the starting point of every design.

Extremis was founded in 1994 by Dirk Wynants, who started off very small with only 1 design that he assembled himself in his summerhouse. He calls his collection designer furniture 'Tools for Togetherness' with an emphasis on human interaction, intelligent problem solving and sustainability, with the aim of improving quality of life. Extremis is based in Poperinge, Belgium. Their designer furniture is universally appreciated throughout the world.

MUUSZE BY GERLIN

As a Belgian family business, the sofa manufacturer Gerlin has grown into a strong international player over the past 40 years and it now has multiple production facilities in Europe. In 2017, Gerlin introduced the MUUSZE collection at the furniture fair in Brussels. In the meantime, this collection has been greatly expanded. The brand image is fashionable, sophisticated and international in character and is distinguished by an excellent price-quality balance. Complete integration of the production process makes this possible. The possibilities within the collections are endless. The luxurious fabric and leather collection ranges from warm velvet, beautiful bouclés to vintage leather. The aim is to use creative styling, with self-invented combinations that are supported at the point of sale with the necessary marketing tools.

INDERA

22

DESIGN

MODULARITY & PERSONALITY

With Indera, the focus will always be on the users and their habits, in the design as well as in the development and production of our ultra-modular sofa's. Through intense and inspiring cooperation with well-known designers surprising modular mechanisms are being developed. This extensive flexibility offers freedom to the user, as you can make up your own perfect and unique sofa.

OUR FURNITURE IS MADE WITH LOVE SO FALL IN LOVE WITH IT

Our sofa's combine strong design with solid seat comfort of the highest standard. The passion and craftsmanship are passed from generation to generation. INDERA is part of the Mecam-group, a Belgian family business that manufactures for more than 40 years upholstered furniture of the highest standard in Dilsen-Stokkem (Belgium). By doing this, we create beautiful and also long-lasting furniture for your living room. Contemporary furniture that grows with you and your family.

JOLI

Joli is the brainchild of John Ghekiere. Since its inception, in 1996, Joli has been specializing in the production of metal, aluminum and stainless steel furniture as well as high-quality chairs.

Due to its comprehensive functionality and original design, our furniture finds its place both indoors and outdoors. Its durable qualities ensure that it is easy to maintain and capable of withstanding different types of weather. The modern character of our contemporary furniture effortlessly combines sleek design with warm cosiness.

JORI

INNOVATIVE SEATING COMFORT SINCE 1963

Belgian company JORI creates perfect seating comfort. JORI has designed contemporary sofas, lounge & reclining chairs, chairs, tables and interior accessories since 1963. Each piece of furniture is created in close cooperation with international designers and is developed at our own workshop with the greatest care. JORI stands for 100% Belgian craftsmanship. Both our collections and custom furniture focus on a high-quality, honest selection of materials and a sublime finish. Our ambition is always your comfort.

LEDRO POWDER COATINGS

30

DESIGN

Saunaco

POWDER COATING IS A PRODUCT FOR THE FUTURE

Powder coating on MDF is increasingly finding its way into the interior design sector. Thanks to the good price/quality balance and scratch resistance, powder coating is a very worthy alternative to liquid coatings. The powder coating process is also 100% solvent-free, significantly more environmentally friendly than liquid coatings, and is therefore a green product. Designers like using our powder-coated interior components in their designs because of the freedom of form: slots, recesses and contours are all possible. At Ledro you can find facades, floor-to-ceiling doors, desktops, decorative panels and customer-specific solutions. We will transform your design into a beautifully finished product. Visit our website, www.ledro.eu, to find out what we can accomplish for our customers.

Manufacturer creative of youth beds and children's bedrooms.

Wide choice of finishes and tailor-made adaptations.

Truly designed and manufactured in Belgium.

UNIQUE TEXTILE STRUCTURE

Indoor rugs, outdoor rugs and an extensive range of high-quality pouffes. Roolf Living has only been on the market for three years and already in the first year, the company was awarded for a German Red Dot Award. The products are manufactured in Oostrozebeke, Belgium. Thanks to the 100% thin-spun and UV-stabilised polypropylene, our fabrics are highly resistant to the sun and the rain. The textile structure is very thick and strong with as added value that it is also permeable to water. All pouffes can therefore also be used in the swimming pool. The fibres we use are also unique because they are multi-coloured, which gives that little extra effect. We strive to make our products look great!

PASSE-PARTOUT

LIFE HAS SO MUCH TO OFFER

Enjoy life, enjoy your sofa, enjoy Passe-Partout. Passe-Partout does not only stand for trendy sofas, beautiful fabrics, various combinations and affordable prices. Passe-Partout also means: enjoying yourself, experience, atmosphere, loyalty to stakeholders and most of all gratitude for everything life has to offer. That's how we work at Passe-Partout and that's how we live at Passe-Partout. It is something we all thing about but we cast aside because we think we are too busy. Companies or people who cannot work with our philosophy will never work profitably with Passe-Partout. It is not about 'what' we do, it is about 'why' we do it. Enjoy life, enjoy your sofa, enjoy Passe-Partout.

ROYAL BOTANIA

OUTDOOR SPECIALISTS

Royal Botania designs and produces iconic, luxury outdoor furniture and lighting, for discerning clientele. Sleek, striking collections, both stylish and sustainable, for patios, poolsides, gardens and homes, using only the highest quality materials combined with top craftsmanship.

Each Royal Botania design is based on three key elements: aesthetics, ergonomics and engineering. They determine the DNA of every single concept of our trendsetting design. Blending these ingredients together, while fine-tuning their balance, is our basic recipe to produce the best in outdoor furniture design.

With this formula and an eye for detail, our in-house design team, led by our founder Kris Van Puyvelde, has earned international appreciation and won multiple design awards on both sides of the Atlantic.

UNIQUE DESIGN IN METAL FRAMED FURNITURE

Unic Design specializes in furniture with metal components, such as tubular furniture. The company has already existed since more than 35 years and during this period the family business has learned to distinguish itself by offering exceptional products. Unic supplies products both for the residential and the contract market. Unic Design's added value lies in product innovation combined with extraordinary service. Moreover, the designs can be significantly modified to suit every personal taste and environment.

HOME OF CREATIVITY

Unic Design carries 'Home of Creativity' as a base line. This creativity is expressed in various areas: responding to current trends with product design and a creative approach to the relationship with the customer. In collaboration with the customer, Unic Design strives to satisfy all customer expectations, both in the implementation of the product, its presentation and the service surrounding it.

VINCENT SHEPPARD

WHEN ELEGANCE, DURABILITY AND COMFORT MEET

Vincent Sheppard has been designing and manufacturing indoor and outdoor furniture with exceptional seating comfort since 1992. The company is worldwide market leader in 'Lloyd Loom' furniture, a technique where kraft paper is twisted around a metal wire and woven into unique furniture pieces. Today, Vincent Sheppard furniture is exported to more than 50 countries. Their headquarters are in Belgium, while their main production plant is located in Indonesia. Through the years, they have extended their product range with other natural and durable materials.

Moreover, Vincent Sheppard organizes its company with an ecological mindset and is very conscious about the consumption of resources. In 2013, they received the FSC-label by the Forest Stewardship Council: a symbol of environmental, social and economic sustainability. Their designs always start from the material and they aim to provide timeless, elegant designs with a surprising and modern touch. All designs combine beauty, quality and comfort.

GBO

BY BAUWENS

AFFORDABLE CONTEMPORARY FURNITURE

The Bauwens company is best known for its wide variety in its range of models. The range under the GBO brand includes dining rooms, bedrooms, seating and chairs. In recent years, particular attention has been paid to styling, new decors with embossed structures and special finishes. The result is a top-quality product range that always takes into account a realistic price/quality balance. In addition, the company always ensures fast delivery.

60 YEARS OF D.E.Z.

The Eiken Zetel NV will celebrate its 60th anniversary in 2020 and in recent years has become a synonym for complete living concepts under the D.E.Z. brand. De Eiken Zetel started out as a manufacturer of oak seating furniture, but has undergone a radical transformation in recent years. D.E.Z. offers a complete designer range of modern furniture. The latest lifestyle design is called Mumbai. In addition, they can supply customers with different seating variations and recliners. The second and third generation of the family run the company now. We are renowned for our quality and service. You can buy our furniture with confidence. At D.E.Z. you have come to the right place.

EVAN

EVAN'S STRONG COLLECTION

The West Flemish Evan produces furniture in the middle price range. The manufacturer produces furniture for the living- and the bedroom and also for the teenage bedroom. All of this is finished with high-quality and carefully selected textured melamine foils. Exclusive foils are a strong argument for Evan, a company for which time has not stood still. Because of extensive automation the company is able to efficiently produce high-quality furniture. In short, Evan offers an excellent quality-price ratio for a strong product. Both Evan and Meubar have switched to two pioneering, innovative products. These are panels with a honeycomb structure and laser edges technology.

Evan is able to produce honeycomb panels with melamine top up to 10 cm thickness, with a panel weight comparable to a standard 16 mm panel. With the laser technology dirty bonding is no longer a problem. Because of this the furniture's look equals that of lacquered furniture. The company is the first in the world to offer these technologies. The manufacturer is currently rebuilding. Evan delivers quickly, exclusively and when required in small numbers, which eases the international orientation.

OVER 60 YEARS OF EXPERIENCE

The 'Medalounger' company is a family-owned business with over 60 years of experience producing high-quality furniture. Building on this rich history, our business aims for continuous improvement through fresh and innovative ideas. At Medalounger we passionately look for ways to create products that fulfil our customers' needs, whilst maintaining a focus on reducing our environmental impact. It is this passion for furniture that has given Medalounger more than half a century of success and we embrace that in everything we do. Above all, at Medalounger we believe we should make a positive impact on everyone and everything connected to our business.

MODULAX: PASSION FOR FURNITURE

Building on our rich history, we aim for continuous improvement through fresh and innovative ideas. At Medalounger we actively look for ways to create products that fulfil our customers' needs, whilst maintaining a focus on reducing our environmental impact. To achieve this, we carefully manage every step of the production process. This begins with product design, which is led by Bram Vandendriessche, the 3rd generation in our family business, to production and assembly at our premises in China and Europe. It is this passion for furniture that has given Medalounger more than half a century of success and we embrace that in everything we do. Above all, at Medalounger we believe we should make a positive impact on everyone and everything connected to our business.

POPULAR

UNIQUE METHODS

Meubar is your strongest partner if it comes to commission orders. The manufacturer of affordable furniture has been able to specialise in custom orders due to radical changes and significant investments. Within Meubar's price range this is unique. The company's method allows for small stocks, which leaves Meubar ready and able to respond to the ever-changing trends. It also allows for private labels, a true success story. Meubar is currently rebuilding. The manufacturer delivers quickly, exclusively and when required in small numbers, which eases the international orientation. In the past year Meubar has successfully introduced the option to already assemble the furniture at a small additional price. The customer can choose a pre-assembled or a prepacked version. Both Evan and Meubar have switched to two pioneering, innovative products. These are panels with a honeycomb structure and laser technology.

AS COMFORTABLE AS A DOUGHNUT

Model Gitano by Neo-Style is a model that has the looks of a modern doughnut and is meant for those that enjoy relaxing and excellent comfort. The seat has 50 kg cold foam pillow, the back is made of 30kg cold foam and microfiber. That makes this couch or chair wonderful to just plop down on, to never get up again. This unknown comfort goes with a little extra folding, which

gives the sofa its distinguished look. The sofa is just right, especially with the new leather options. The sofa is available in four widths (170, 190, 210, 230) and high or low backs. A royal feet rest complements the picture. Gitano is also available as a recliner with three engines and an adjustable headrest and built-in battery. Have a seat and enjoy it!

TUBULAR STEEL FURNITURE

Perfecta has been producing both lacquered and chrome-plated tubular steel furniture for the modern sector for more than fifty years. The fast and reliable delivery of chairs, tables and beds is their greatest strength. The products are used in the living environment (dining rooms, kitchens and bedrooms), catering facilities, communities and offices. The tabletops are available with HPL, Fenix or a Halifax topcoat. Most tables are available in different heights and with tabletop dimensions from 60 x 60 cm to 300 x 100 cm. The seats are available in fifty different shades of artificial leather and fabric. The 65 cm bar stools are compatible with the 90 cm tables. The 80 cm bar stools are compatible with the 110 cm tables. The frames of most models of tables, chairs and beds can be supplied in no less than sixteen epoxy colours, in addition to chrome and satin chrome. Perfecta also has both single and double beds with sizes ranging from 90 cm to 180 cm.

EXPERIENCED TRENDSETTER

Because of the combination of craftsmanship and the customer focus MTE has grown into a trendsetter when it comes to the production of solid oak wood furniture, and that for over 85 years! The wood has undergone a special treatment and has been finished with a brush or scratch technique, which gives it a warm and deep structure. These extra steps in the production process are combined with contemporary colors. Every collection is very extensive; all the ingredients to make up a complete program are present.

A CONTEMPORARY LOOK

Affordable and reliable quality. This is what seating manufacturer Varam promises. The wide collection consists of distinctive designs in recliners and sofas. Some things that Varam stands for: comfort, functions, modern, relaxing, quality, good price. Varam has over seventy years of experience under its belt. Varam's seating has a contemporary look. The company shows itself in the commercial section of the market. The development takes place in Belgium, which guarantees a high level of service.

OTIUM CARE

104

HEALTH CARE

CONFIGURE CARE SEATS YOURSELF

Mecam, the market leader in Benelux in the field of comfort seats for more than forty years supplies comfort seats for healthcare under the name of Otium care.

"This is a relatively young brand within the Mecam group and a unique concept," says Christel Heymans, manager at Otium Care. "The models were developed by our R&D team in collaboration with a leading care home organisation. They were then tested for comfort by Happy Aging, which has mobilised more than thirty elderly people and caregivers. Wood.be did the technical tests and the Construction Confederation gave its opinion on the Universal Design. The care seats meet all ergonomic standards and other specific requirements: they are water-repellant, fire-retardant and odour-free in the event of 'accidents'. In this way we want to relieve the client's concerns by letting them follow their instincts when making a choice."

What makes Otium Care seats special is that the customer can design them entirely according to their own wishes, from exact configuration to upholstery. Although Otium Care always delivers tailor-made solutions, it also has a few showrooms where it displays existing models, from classical to modern, as a source of inspiration. "Test models can always be requested," says Heymans.

MASTERLY BELGIAN CRAFTSMANSHIP

For more than 25 years, we have dreamed of letting as many people as possible enjoy the perfect night's sleep. To this end, over the years, we have developed specific expertise based on craftsmanship, quality and customisation. Our permanent quality care and the search for the best materials in combination with the latest sleep innovations always ensure masterly Belgian craftsmanship. We firmly believe that listening to the customer's needs and wishes can approach sleeping comfort to perfection. That is why we think it is vital to invest in craftsmanship and customisation with almost infinite adjustment possibilities. Professionals in our workshops supervise the production process from A to Z. In this way, we keep a finger on the pulse and guarantee the highest quality standard. All distributors of Acro bedding can always count on our drive and expert advice to achieve the best and sometimes even the impossible. To put it in the words of Walt Disney: 'If you can dream it, you can do it. That is what everyone at Acro bedding strives for every day. That is our way of life... The Acro way of life.

SOLID AND ELEGANT BOXSPRINGS

Veldeman Bedding has built a solid reputation in the past couple of years with the box spring collections Velda Metropolitan, Velda Classic and Versus. The sober styling, attention for detail and the wide range of decorative fabrics are appreciated by the consumer. The numerous dealers and bedding companies see the high quality finishing, the quick delivery and the reliable service as true trademarks for Velda. This year the emphasis has been on the technological developments of Fly and Finesse. Fly stands for innovative Belgian design which shows that a box spring can be both sturdy and elegant. Because of the floating construction the maintenance is easy. The Finesse does justice to its name and marks the start of a new generation of comfort. This stands for exceptional design and smart technology. This is not a box spring, this is a dream...

VIKA BATHROOMS

BATH

'MORE THAN JUST A PLACE TO WASH'

Vika bathroom furnishings stand out thanks to their durability, wide range, good price and customisation possibilities. We have furniture in all sizes and colours. For example, we have solutions for small bathrooms, while our practical furniture offers a lot of storage space. But Vika is also the right place to be for larger layouts. As a manufacturer, we closely follow trends in the interior design market, with a team of experienced employees. We also work in collaboration with external designers to create our collections. As Vika makes kitchens and other interior cabinets in addition to bathroom cabinets, the chosen style can be extended throughout the entire home. This ensures harmony and well thought-out consistency in the interior. This is an asset that is particularly appreciated by interior designers and our customers.
